## How to Add collision-stop function—Stinger

➔ Problem : Add collision-stop function—Stinger

Solution overview: 1. Need to connect the THC signal line to the system;

Problem analysis:

Solution: You need to connect a cable, as shown in the figure, the green mark is the cable to be connected;

Open the back cover of the system box,

Strip the THC cable of the system DB25,

Then the 9 pin of the THC cable is connected to the 16P of the DB25 of the system
