

SCOUT 2

CNC PORTABLE FLAME / PLASMA CUTTING MACHINE

Low Consumption

Good Structure

Efficient

Long Life

Two Modes for option

We have professional CNC instructors to help you analyze and sort out your cutting needs, and provide you with the most reasonable solution!

Option 1: Flame Mode

Option 2: Plasma + Flame Mode

Lightweight yet Reliable Cutting Solution

Scout 2 offers a flexible solution with all advantages of a CNC portable cutting machine. Due to its lightweight and solid aluminium construction, this small unit is quick to assemble and dismantle. It can be configured as either a oxy-fuel cutting machine or a plasma cutting machine.

With a standard 18-month warranty, this the CNC machine you'll own for the long haul. Whether you are a dealer, a busy workshop owner, or a metal artist, this lightweight yet reliable unit will exceed your expectations.

Cutting Capacity

MINIMUM CUTTING SIZE:
1500*3000MM

MAXIMUM CUTTING SIZE:
1500*6000MM

TOLERANCE:
< 0.5 MM

Reliable Machinery

Modular aluminum base

Hard-plated shaft, hard casting process, molding, wear-resistant, deformation-free.

New Lifter

Increase the upper and lower limits. eliminate operating errors to damage the lifting body.

Arc voltage Control (AVC) for Plasma Mode

- Optimized following algorithm to improve cutting quality.
- Using high power arc starting relay to enhance arc starting stability
- Professional motor drive chip to strengthen protection measures
- Double LED digital tube display, set arc voltage and actual arc voltage

Easy to Assemble

Due to its compact size, installation of the Scout 2 is easier than ever. Assembly and setup of all components do not require any special measuring tools. Prior to shipping, the Scout 2 is pre-adjusted at our factory. Once you are ready, simply slide all components together and connect cables.

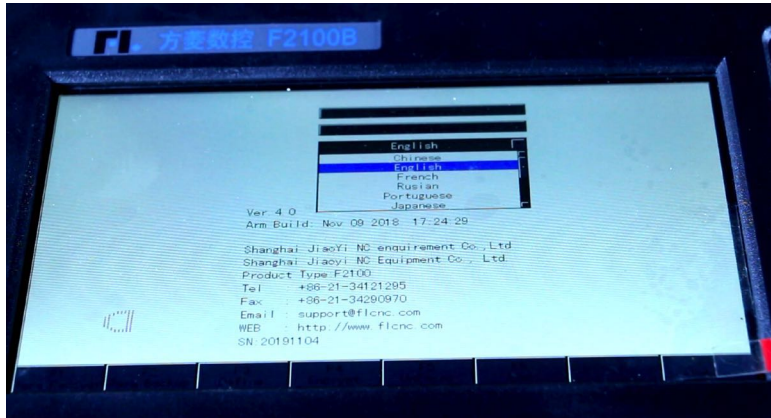

Easy to Operation

The machine is easy to program and nest material. It can be used to manually program simple graphics or to automatically program any complex graphics through the fastcam software provided with machine.

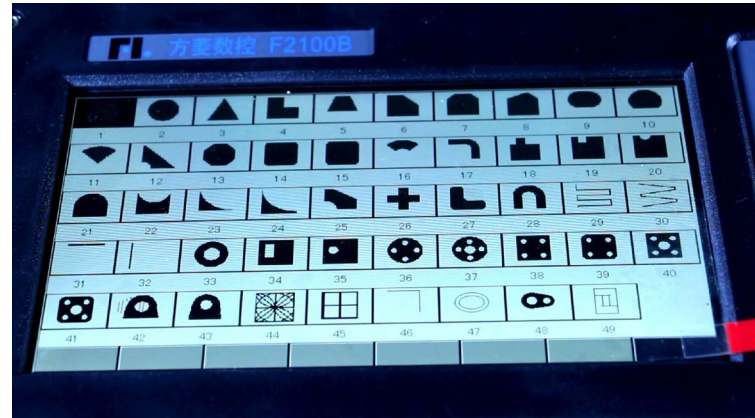

SHANGHAI FANGLING® CNC SYSTEM

Feature:

- A simple, menu-driven interface is easy to learn and operate.
- Built-in library of common shapes
- File transfer storage is convenient and flexible: Support USB port for program loading.
- G code dynamic simulation processing function
- Kerf compensation
- Complex curve fitting function
- Support multi-format file import and export

Supporting multi-language

System comes with multiple graphics

FASTCAM® SOFTWARE

Feature:

- Fastcam® Software for Plate Shape Cutting with integrated 2D drawing, tool pathing, true shape nesting, code verification & NC generation.
- It is far less complex than other systems. Easy Editing & Verification of geometry combined with one step nesting makes the system instantly productive.
- Extremely Powerful CAD interface that cleans and compresses code ready for quality cutting.
- FastCAM® Reads and/or Nests DXF, DWG, DSTV/NC1, StruCAD, IGES and PDF file formats.

Fastcam software

SPECIFICATIONS

Type	Scout 2
Mode of Cutting	Plasma / Flame
Input Voltage	110V/220 V
Frequency	50 Hz/60Hz
Input Power	180 W
Display	LCD 7 "
Flame Cutting Thickness	5mm – 150 mm
Plasma Cutting Thickness	Depending on the plasma power source
Flame Cutting Speed	0 –1000 mm/min
Plasma Cutting Speed	0 –4000 mm/min
Tolerance	<0.5mm
Plasma Height Control	Automatic voltage THC

ARCBRO SUPPORT

ARCBRO LEARN CAMPUS

Learn the machines before you get them.

Make the work simple! View ARCBRO learn campus online to learn the machines before you get them. ARCBRO learn campus is a online CNC plasma cutting training program in the industry. It takes our customers through a series of knowledgeable and concise videos and files to give them in-depth training and technical instruction. These videos will take even your newest operator to an expert level in no time. They were formulated with our customers at the forefront of our minds, which has transcended into fast and effective training for many different markets, such as: education, metal art, custom automotive part fabrication, and many others. ARCBRO TROUBLESHOOTING

You can buy any arcbro product without any hassle!

All our products have a precise and reliable manufacturing quality inspection system. In addition, all products have a one-and-a-half year warranty and are accompanied by the best after-sales protection system in China. Multilingual professional engineers perform online machine diagnostics in 24 hours. We bear the cost of any parts failure or damage during the warranty period and you only need to pay the shipping cost.

In addition, you can easily find all the after-sales solutions you may need on our official website. We have organized the questions that customers have asked us when using the machine for many years, and gave answers in detailed but easy to understand words to help you solve the problem as quickly as possible.

Want to know more, just browse our official website, click support, enter Arcbro troubleshooting system. Link: <https://www.arcbro.com/support/troubleshooting/>
